

### About Himalayan Pharmacy Institute

Friends, education is not only a means for acquiring knowledge but also a tool for rendering social values and engaging in socially useful activities. Himalayan Pharmacy Institute, established in the year 1990 is reputed for its commitment to progress and propagation of pharmacy education not only in north east region but also in whole of India. Today the institute is one of the largest postgraduate and research institution in the eastern region of the country. The focus on research based education is intended to maintain the quality of our students as per international standard. It gives us immense satisfaction to see successful accomplishment of the AICTE sponsored research projects and publication of research articles in both national and international journals of esteemed value. The institute is yet to go a long way to achieve its goal. The major task of its future plan is to develop an internationally recognized centre of excellence in Pharmaceutical Education & Research in the North East region.

### About Sikkim

Sikkim is sheer magic. This is not just the most beautiful place in the world but cleanest and safest too. With its unique culture and natural landscape, Sikkim is a picture of perfection and pristine purity. Nestled in the Himalayas and endowed with exceptional natural resources, Sikkim is a hotspot of biodiversity and development. Perhaps, there is no part of the world, which offers a spectacular scene with every turn of the road as Sikkim. Though land-locked, Sikkim is one of the most beautiful and strategically important Organic state of the Indian Union.

## NATIONAL WORKSHOP

ON

### SCIENTIFIC WRITING & PUBLICATION

### “FROM BENCH TO PAPER”

For  
**Professionals/ Research Scholars/  
Students**

**October 6<sup>th</sup>, 2018**

**Theme:”Dream to Reality”**

Organized by  
**Himalayan Pharmacy Institute**  
**Majhitar, Rangpo, East Sikkim, 737136**  
**www.hpi.ac.in**  
**hpoinstitute@yahoo.co.in**

## OBJECTIVE

The aim of this workshop is to enhance the capability of participants to write good scientific papers. This will emphasize the quality of writing and dissemination with a view to improve readability, maximize the contribution of the research done and improve the opportunities for publishing. It also concerns the quantity of scientific production by initially addressing the issue of increasing productivity through peer-guidance, best practice in the organisation of work, co-operation, choice of partners/co-authors and group dynamics in scientific writing.

## HIGHLIGHTS

- Live session on HPLC for primary data collection.
- Apply five key principles of scientific writing.
- Target their publication to a specific audience by “framing” their research story for increased impact.
- Construct a memorable “take-home message” by connecting all parts of the paper in a flowing narrative.
- Use the writing process to guide & understand their own research.
- Overcome writer’s block by combating perfectionism and procrastination.
